

MyToolBiz — Your Complete Business Building System

Building a successful business with your company requires having the right tools: an easy way to find an ongoing source of new prospects, tools to make recruiting them easier, and the training to be effective in getting them started.

MyToolBiz™ combines all these elements into a single system, making it easy for you to grow your business and easy to duplicate the same system to your existing organization to help them grow, too. With MyToolBiz, growing a large, thriving organization with your existing business is *now* possible!

For leaders with large organizations, MyToolBiz's *Private Team System* gives you additional tools to grow your team larger with less effort: easily communicate with them, more effectively train them with your personal training, and build a stronger "community" feeling within your team to increase retention.

Private Team System Tools*

(Exclusively for large team leaders. Contact MyToolBiz for setup details)

The *Private Team System* is a "private label" system for large team leaders and their organizations. Increase your team's growth with custom content, communicate with them at any time, create your own personal training, and enhance the feeling of "community" among your team members.

Customized Content

Customize any content in the MyToolBiz system (websites, email auto-responders, training, etc) to make it specific to your existing business for your team members.

(continued from previous column)

Communication

Increase your team's retention by communicating with them frequently. Send motivational tips, monthly company updates, recognition of team members' achievements and special promotions.

- ◆ **Team Blast:** *access a database of your entire team on the MyToolBiz system and instantly communicate with them, anytime. Filter your team into broadcast lists with memorized QuickLists. Communication channels include email, voicemail, video mail, text message, desktop alert and dashboard messages. Built-in tracking lets you see who has viewed your messages and who hasn't.*

Training

Getting new members off to a fast start builds momentum and increases retention within your team. By duplicating your proven training — your DNA of how to build a business — you can create multiplication at a much faster pace.

- ◆ **Welcome To The Team:** *create training auto-responders ("Welcome to the Team" messages) that are sent to all new team members to help them get started quickly and correctly. Auto-responders can include a mixture of email, voicemail, video mail, text message, desktop alert and dashboard messages, and can go out at varying intervals.*
- ◆ **Team Training Site:** *easily build your own training site for your team by adding your content to our integrated training section.*

Community

Creating a TEAM environment (Together Everyone Achieves More) creates a sense of community and belonging among your team members, increasing passion, relationships, and retention.

- ◆ **User Forums:** *built-in user forum lets team members learn what works from other successful members by asking questions and having successful members respond with answers. User forums can be moderated. All questions and answers are stored to create a searchable resource center for your team.*
- ◆ **Team Calendar:** *post all events in your team on a central calendar, and segment each event by region. Each team members only sees events in his/her region. Enable an automatic reminder for any event to be sent to team members to remind them about the event.*
- ◆ **Team Website:** *easily create a professional looking website to brand your team and provide prospects an opportunity to learn about you, your leaders and why they should join your team.*
